EDUCATION

University of Florida ***May 2026***

Bachelor of Science in Computer Science Engineering
Minor in *Digital Arts and Sciences*

INTERNSHIPS

KIDZHACK - Software Engineering Intern ***Summer 2025***

AWS, Python, JavaScript, Angular, Git

- Developed features for a student wellness platform that helps teachers monitor students' emotional well-being
- Built role-based access with custom AWS Lambda authorizers, saving administrators **167+ hours annually**
- Refactored **10 desktop pages** for mobile and delivered authentication, infrastructure, and interface improvements
- Operated in an Agile environment using Jira to manage sprint tasks, track progress, and ensure timely delivery of features

Weekly Cleaning Quotes - Full-Stack Engineer Intern ***Summer 2024***

Python, Flask, Bootstrap, DigitalOcean

- Developed a web app for a small cleaning business, providing local residential cleaning cost estimates to over **100 users**
- Utilized a Python and Flask backend while integrating RentCast API data from more than **140 million** property records
- Built a mobile-friendly interface with Bootstrap, styled it with CSS, and used HTML input validation for quote requests
- Registered a domain through Namecheap and deployed the website on DigitalOcean with HTTPS encryption, ensuring secure hosting

PROJECTS

Limelyte - Full-Stack Developer ***Summer 2026***

TypeScript, React, Next.js, PostgreSQL (Supabase), Vercel, Setlist.fm API, Last.fm API, Spotify API

- Developed a full-stack web app where up to **50,000** monthly users can discover and review concerts
- Integrated **3 music APIs** to surface over **9 million** live performances for concert discovery and reviews
- Developed **18 distinct** desktop and mobile pages, adapting layouts for discovery, reviews, playlists, and social profiles

FlowState - AI Systems Developer ***Spring 2026***

React, Mantine, Python, OpenAI API, Docker, Docker Compose

- Collaborated with teammates to build an AI-integrated web app that converts uploaded textbooks into personalized study materials
- Streamlined teammate onboarding with **Docker Compose** by enabling development setup with a single command
- Designed **RAG architecture** to reduce hallucinations by retrieving relevant textbook passages and grounding AI responses

INVOLVEMENT

University of Florida Open Source Club ***Fall 2022 - Spring 2026***

- Contributed to a cross-platform mobile app that improves traditional alarm clock functionality by introducing penalties for oversleeping
- Implemented a dark mode toggle using React state management, enabling dynamic theme switching across the user interface

Swamp Records - Concert Photographer ***Spring 2025 - Spring 2026***

- Captured and developed photos of **20+** concerts and live events with work later published in Tea and Literary Arts Magazine

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL, HTML/CSS, C++, MATLAB
Tools/Technologies: Git, Amazon Web Services, Adobe Creative Cloud, React, Node.js, PostgreSQL, MongoDB, Microsoft Office, DigitalOcean, Docker, Claude Code, Codex, Cursor, Copilot CLI

SCHOLARSHIPS

Bright Futures Florida Academic Scholars Award; Pelican Bay Rotary Club; Moose Lodge Heart of the Community Award
